

COVID MOVING DAY GUIDELINES

Making your safety a priority

1 CLEAN

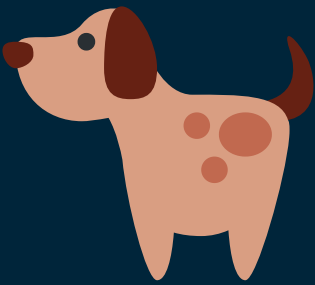

Clean around your house and ensure to disinfect hand rails and door handles before and after arrival of our team.

2 WASHING HANDS

Please ensure warm water and hand soap is available at the time of our visit, to ensure both parties are able to wash their hands.

3 PETS

Where possible, please keep pets locked away in a separate room to avoid contact.

4 PPE

Wearing a face covering is optional and is not required by law. Social distancing guidelines will be maintained where possible.

5 SOCIAL DISTANCING

It is important social distancing guidelines are maintained during the move. A minimum distance of 2 metres should be kept between yourself and our team and where possible only one member of your household should be present during the move.
